

## R&D CRO MANAGER

AMAL Therapeutics is a biotech company, developing unique therapeutic vaccines and a distinct unit of the Discovery Research organization of the Boehringer Ingelheim group. The company has developed a novel peptide/protein-based immunization technology platform, called KISIMA®, with the aim of stimulating the patient's immune system for effective anti-cancer therapy. AMAL's lead product, ATP128, is in clinical development for metastatic colorectal cancer since July 2019.

### Position Description

We are seeking a dynamic R&D Contract Research Organization (CRO) Manager to join our team on a 100% basis. In this position, you will be responsible for coordination and follow-up of research and development activities conducted at CROs, including preparation of requests for proposal, work order agreements in collaboration with project team members and COO, tracking of activities and deliverables.

### Job duties include, but are not limited to:

- Ensure CROs deliver products and/or services as per work order agreements by tracking deliverables in terms of results, quality and timelines
- Participate to regular activities review meetings with CROs
- Report deviations/issues to management and propose remediation plan
- Identification of potential CROs
- Technical/scientific input into preparation of request for proposals, comparison of offers and vendor selection
- As needed, follow-up transfer of activities between CROs

### Profile

- Master in lifescience mandatory, PhD is a plus
- Minimum five years of experience in a biotech, pharma company or contract research organization in research, development or analytical development
- Experience in dealing with contract research organizations
- Strong prioritization, problem solving and organizational skills
- Ability to work independently, while seeking and receiving information from various stakeholders
- High energy, used to working in a fast-paced environment
- Excellent interpersonal and communication skills, willing to work in a small team
- Project management experience is a plus
- Proficient with MS Office programs
- Fluent in English (basics in German, a plus)

### Position details

- Based in Geneva
- 100%
- Reporting to COO
